OUR EXPERTISE

Customized international transport: a tailored solution for every need

Each service is designed to adapt to your specific needs. We don't sell off-the-shelf products: we co-develop your solution.

Air freight

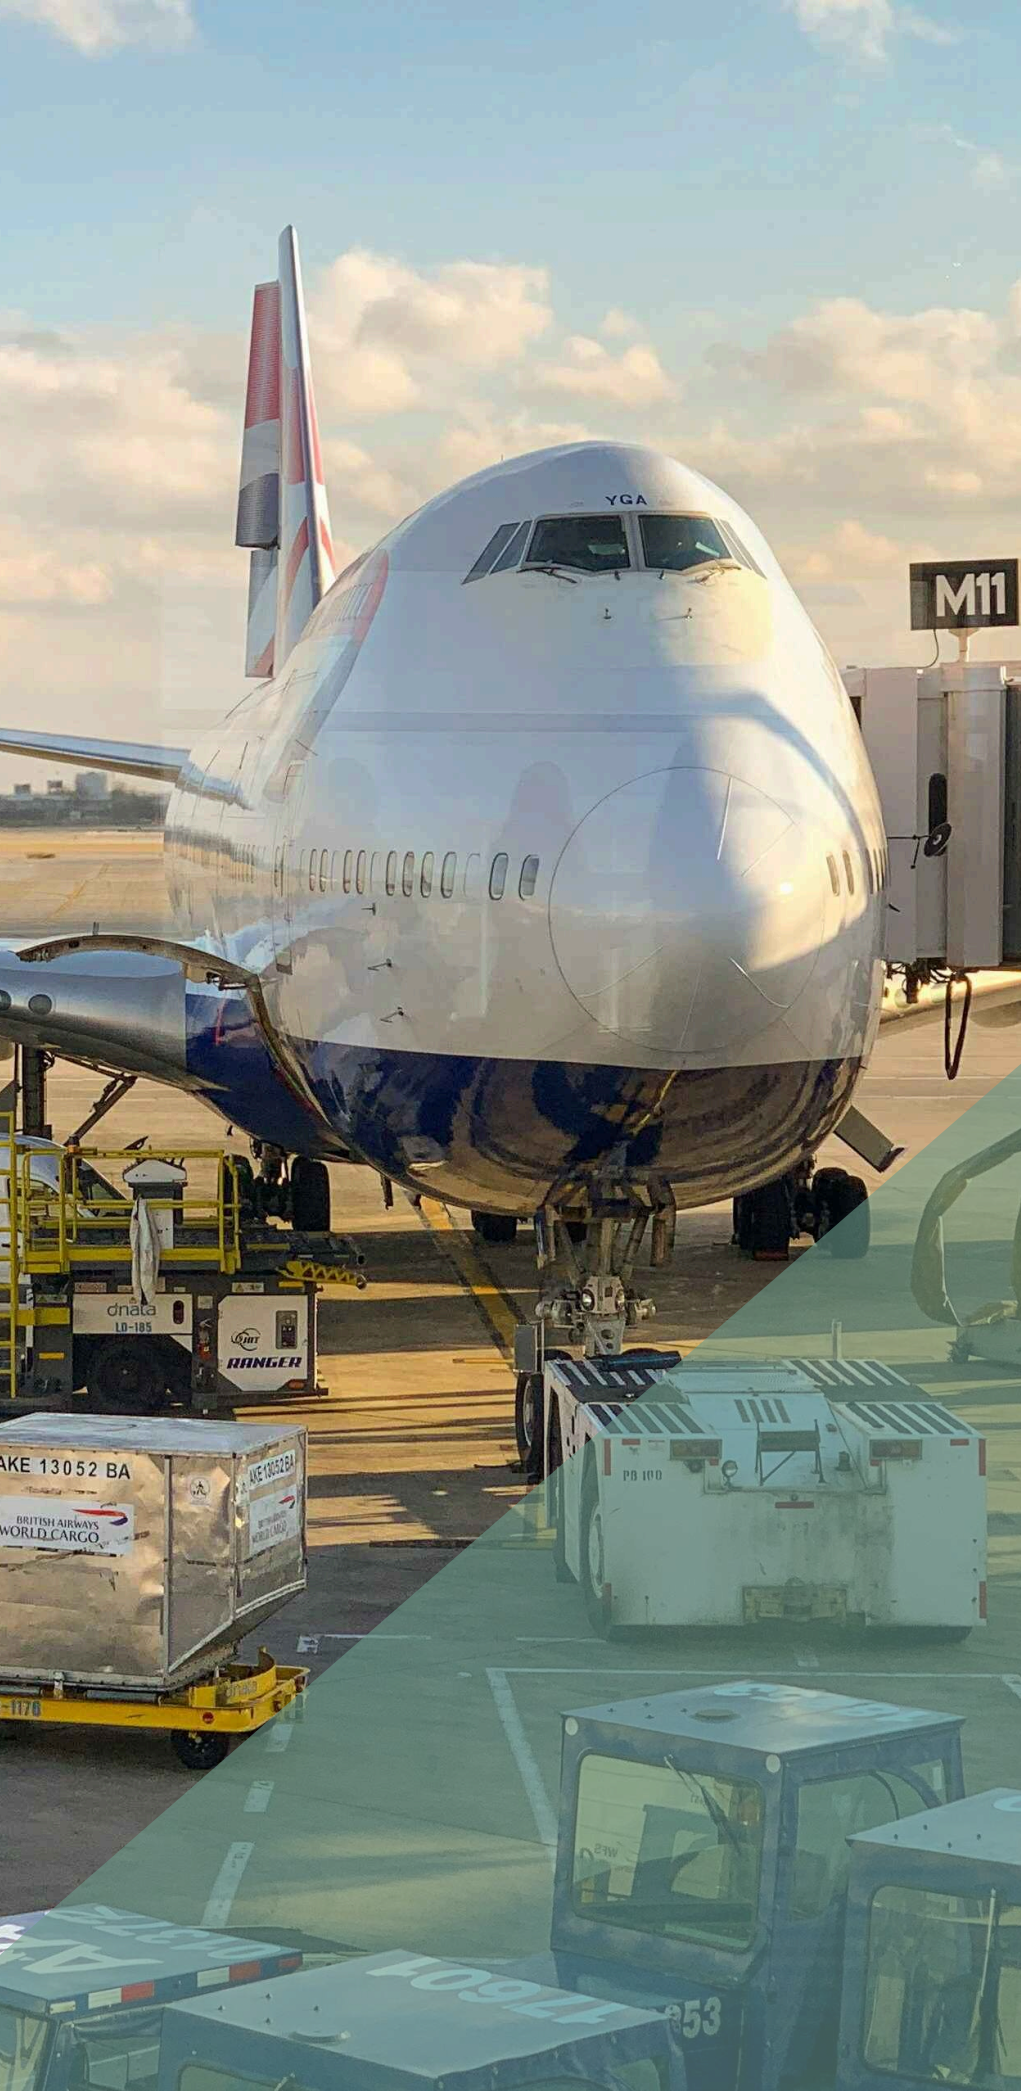

When speed is essential, our premium air service takes over. Thanks to our strategic partners (e.g., Lufthansa), we offer regular and reliable connections. We reduce delays, maintain quality, and prioritize efficiency.

Sea freight

We optimize your costs and lead times thanks to our agreements with the largest shipping companies (FCL/LCL). Our consolidation solutions allow for precise management of your volumes, with secure storage in Le Havre.

Rail freight

A cost-effective alternative to sea and air freight. Our LCL and FCL lines from China provide a fast and competitive solution. Optimized transit via Poland and Germany.

Road transportation

Nous assurons un transport routier fluide, sécurisé et parfaitement maîtrisé, en lien direct avec vos impératifs logistiques, et ce, sur tout le territoire national et international.

Vehicle transport

Storage, inspection, secure loading (shelving and straps), insurance... everything is handled. You benefit from a reliable service, ready for shipment to or from any destination.

Customs clearance

Enjoy smooth, fast, and proactive customs clearance with personalized support. From declaration to bonded warehousing, we will assist you with all your customs procedures.

Insurance

Thanks to our partnership with Helvetia, we offer you Ad Valorem coverage tailored to your goods. Your shipments are protected against the unexpected, with complete transparency.
